RIBBON TYING INSTRUCTIONS

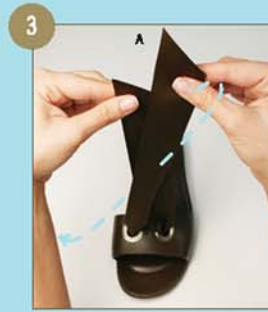

For Caroline, Madison and Mule Styles

1 Cut a ribbon of your choice at a 21" length and thread through the grommets.

2 Left end (A) needs to be longer. Match the tip of short end (B) to the lower corner of the longer end (A).

3 Cross the longer end (A) OVER the shorter ribbon (B). Loop the longer end (A) over the top and under the short end (B).

4 Pull each end of the ribbon away from one another to tie a knot.

5 Fold the shorter end (B) in half to form a loop. Secure the loop in place with your thumb.

6 While holding the loop (B) in place with your thumb, bring the longer end of the ribbon (A) over and around the loop (B).

7 Wrap the longer end (A) over and around the loop (B). Push the surface of ribbon (A) with your index finger under and through the knot.

8 Hold loop (B) with your thumb while pushing the ribbon (A) under the knot.

9 Tighten the knot by pulling on the bows.
